

## FLOODLINE Point Sensor

The Point Sensor is a compact sensor for vertical or horizontal mounting.

Water touching its stainless steel probes activates the alarm. The height is adjustable. It is made from robust ABS material to give heavy duty, physical protection and assist fixing and adjustment.

The Point Sensor is used where Detection Cable could be damaged or where some damp, minor wetting or spillage is expected or of little concern.

The sensor can be connected in any number and/or combination with our other sensors.

### Applications:

Plant rooms  
Solid floor area  
Basement/tunnels

### Detection:

Activates when any conductive liquid makes contact across the probes.  
Multiple re-use.  
Instant return to use after water is cleared up.

### Construction:

High density plastic body, stainless steel/nickel plated brass probes.  
Encapsulation option for immersion proofing.

### Dimensions:

Sensor: L101mm x W94mm x H40mm

### Fixing:

Base of wall or apparatus.  
Floor – fixed direct to floor by slotted fixing holes for easy adjustment.

### System:

Connected in any number and/or combination with our other sensors.
